## Introduction:

**Custom Woocommerce Discounts** allows you to set a discount by user roles, categories, day and country wise to the products. It allows you to define different roles to add and provide them customs rights (access permission). The plugin provides a flexible discount method and options to apply discounts on products. It also offers well-defined solutions to help you set the discount rules for your store.

### Features :

- Allows the user to create custom roles with access permissions.
- Ability to set product price as per user role.
- Ability to set discount to a variable as well as a simple product.
- Ability to set the discount as per the Category/Day/Country to user roles..
- You can set discounts by the percentage or amount method.
- Applied to regular price or sale price.
- Compatible with Woocommerce, Ultimate Members, User Role Editor.

**Dependant Plugin:** WooCommerce.

## Installation :

### 1) WordPress Plugin Uploader

1. Log into your WordPress admin panel
2. Navigate to Plugin -> Add New
3. Click Upload.
4. Click Choose File and select the **Custom Woocommerce Discounts** plugin package zip.
5. Click Install Now.
6. Complete the installation process as directed by WordPress and Activate the plugin.

OR

### 2) FTP

1. Decompress the .zip file you downloaded from Codecanyon.
2. Find the Custom Woocommerce Discounts folder (this directory is created when you unzip the file).
