1.Shopping List Display Option

1.1 Lists Creation:-

This option controls the ability for Guest users to create lists. If you want anyone, with or without an account to create lists, Select and click on the checkbox and manually can set the expiration of the list.

List creation

☒ Enable list creation for guest user

List expiration days

17

If not set default will be 15 days

If checkbox left blank then the wishlist buttons will be hidden from Guest User and User must sign in products and will require the user to log in before they can create a list.

1.2 Shop list page

This option controls whether the shop page list is added to the primary menu.
(Note that this will only work if you have set any menu at primary location)

1.3 Button type

When the Add To Wishlist content is displayed on a single product, it can either be a text link, or a button which looks similar to the Add to Cart button. Choose the type you would like to use here.
